Meeting started at 12:30PM, lead by McLester.

Summary: The Executive Committee reviewed all proposals at GPCC’s level by the deadline. One INED proposal needed further revisions and will be returned to the originator.

Consent agenda:

1. None

Proposals moving to GPCC:

1. EdS and EdD Middle and Secondary Grades AND EDSM 8701, 8901, and 8902 (had first read, presenting for 2nd read with CIP code adjustments.
2. EHS 7800 change from letter grade to S/U
3. Applied Statistics and Analytics program name change  
   Procedurally fine, but the EC wanted to send email letting them know that some questions came up about whether they have consulted with other programs that identify with the term "analytics" and with no changes in curriculum we couldn't make the clear connection for the addition of the term analytics except for the alignment with the department name.
4. Gifted Endorsement and new courses INED 7765, 7766, 7767, 7768 (Content the same, the EDUC courses are moving to new prefixes and numbers)
5. INED 7730 change prereq to admission to any Ed grad program

Other proposals considered:

- INED 6410, 6411, and 6412 are discontinuations but need to be with a MAT proposal making its way through Curriculog (i.e. not a consent agenda discontinuation).
- INED 6400 is also part of MAT proposal, the issue we see with this is that it is a cross-level and the objectives were the same, i.e. there were not higher level objectives for the grad syllabus, and the assignments may not demonstrate the increased rigor required.
- INED 6431 needs to go back to originator, this is a cross-level that does not mention this in proposal, and the addition of document with the cross-level addressed didn't appear until the college curriculum level, therefore we don't have evidence that this was approved by previous bodies.
- Also, INED 6431 should be accompanied by discontinuation of INED 6421, 6422, and 6423

Old Business: none

Meeting adjourned at 1:30PM
